ANNUAL REPORT FOR 2020-2021

December 18, 2020

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2019-2020 educational progress for Baker Elementary School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Principal, Rachel Cimek, for assistance.

The AER is available for you to review electronically by visiting the following link [2020-2021 Baker Elementary AER](#) or you may review a copy in the main office at your child's school.

For the 2019-20 school year, schools were identified using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that has at least one underperforming student subgroup. An Additional Targeted Support (ATS) school is one that has a student subgroup performing at the same level as the lowest 5% of all schools in the state. A Comprehensive Support and Improvement (CSI) school is one whose performance is in the lowest 5% of all schools in the state or has a graduation rate at or below 67%. Some schools are not identified with any of these labels. In these cases, no label is given. Baker Elementary was not given one of these labels.

Baker Elementary School's key challenges include improving reading for all students including those who are most at risk, those who are at grade level and those who are excelling. Our key initiative is implementing a multi-tiered system of support with interventions for our lowest performing students and enhancements for those students whose development is satisfactory. Our plan also includes implementation of a school wide Title I system to aid the literacy skills of our students.

State law requires that we also report the following information:

Process for assigning pupils to the school

Students are assigned to Baker Elementary School based upon geographical location. Boundaries for busing exist in the district's four elementary schools. If parents request Baker Elementary School as part of their schools of choice option, they must provide their own transportation.

School Improvement Plan

Baker Elementary School is an early childhood building with students in preschool through 1st grade and so the School Improvement Plan continues to focus on early literacy and math skills and sets goals for growth in these areas. Strategies associate with the plan are: a Multi-tiered system of support that helps students at all levels including below-, at- and above-grade level, preschool to grade level curriculum and transition activities, parent involvement outreach and Title I school-wide instructional integration. detailed information regarding the School Improvement Plan is available on the district website www.waylandunion.org or by contacting the building principal.

Special Programs

Wayland Union Schools provides all students with an exceptional academic education, geared towards individual student needs. Individualized supports, interventions and opportunities are provided to empower students to reach their full potential. For students who are eligible for special education we provide a continuum of services to meet their needs. The Individualized Educational Plan Team (IEPT) makes decisions regarding the appropriate programs and services providing a Free Appropriate Public Education (FAPE) in the least restrictive environment. Along with instructional support, the district employs ancillary support services that include speech and language pathologists, school social workers, teacher consultants, occupational therapists, and school psychologists. In cooperation with Allegan Area Educational Service Agency (AAESA), we also provide teacher consultant services for visual impairments, hearing impairments, autism spectrum disorder, and orientation and mobility, behavioral consultants and physical therapists.

Special education programs are provided in compliance with the Individuals with Disabilities Education Act (IDEA), Michigan Administrative Rules for Special Education (MARSE) and the Allegan Area Educational Service Agency's ISD Plan. Special education programs are located in each building in the district and are based on each individual student's level of need as an alternative to the disability specific programs outlined in MARSE. Programs and services for our youngest students, age birth to three, and for our students whose level of need requires extensive ongoing support throughout the day are provided through AAESA.

Core Curriculum

The core curriculum provides a framework for our educational programs. It is a set of expectations all students should achieve to progress in their schooling. We are working to deliver a curriculum that provides all students with the knowledge and skills necessary for living effectively today and in the future.

Baker Elementary teachers use district approved curriculum resources to implement our core instruction. These include Language Arts, Math, Science, Social Studies, Technology, Fine and Performing Arts, and Physical Education. All areas of the curriculum are reviewed annually within a five-year cycle.

The five year process includes reviewing the current curriculum along with the revisions received from the Michigan Department of Education, revising the curriculum, implementing the revision, monitoring the implementation, and finally, evaluating the data and the curriculum revisions to determine when certain concepts should be introduced at a particular grade level. Curriculum revisions and/or textbook and software purchases are reviewed and recommended to the Board of Education by the District School Improvement Committee.

Teachers receive professional development and training in areas of the curriculum that have been revised or when students have not been able to demonstrate adequate performance. It is important for teachers to be aware of each individual student that is not performing to district and state standards, and plan their instruction accordingly. Our curriculum provides expanded opportunities designed to meet individual needs. Course offerings exceed core curriculum requirements established by the Michigan Department of Education. Strong academic programming is supported by quality technology and facilities. Please contact the Assistant Superintendent of Instruction for access to district curriculum guides.

Integrated with our core academic curriculum and enhancing a student's quality educational experiences are:

- Community partnerships
- Field trips, assemblies, and special activities/events
- Integration of technology into instruction and assessment
- Library-media resources
- Active and involved parent participation

Student achievement remains our top priority. Higher standards and greater expectations have resulted in the implementation of a variety of instructional methods, progressive teaching strategies, and specialized programs designed to respond to the individual needs and learning styles of a diverse student population. We offer a demanding academic schedule for all students with an emphasis on post-secondary preparation skills.

We embrace the concept of a brain-compatible learning environment, recognizing that individuals learn at different rates of growth through different methods of instruction and a variety of teaching/learning styles. Our curriculum makes provisions for the variability of academic skills, interests, and social, emotional, and physical development within our student population.

Aggregate Student Achievement Results on District Assessments and Nationally Normed Achievement Tests

Note that student assessment and accountability data are not included in the 2020-21 AER due to federal waivers.

Parent Teacher Conference Rates

	Fall	Spring
2019-2020	94%	90%
2018-2019	95%	91%

Baker Elementary School is proud to provide students with a comprehensive, early childhood education that includes instruction in core content areas as well as music, physical education, art, media, social and behavior skills. Our teachers and staff create a warm, interesting, educational environment so our over 450 students can grow and learn.

Sincerely,

Rachel Cimek
Principal
Baker Elementary School
