Learn Robotics in VR!

Ages 10-13

Learn about robotics in Virtual Reality!! Your child will see short lessons on how RPM works, axles, motor controls, pistons, servo motors, etc, and then implement what they learn by building a robot to overcome a challenge (i.e. deliver sandwiches, etc). In VR, it's fast and easy to create any robot that your child can dream of. The flexibility of this program is amazing, and your child will learn so much while they have a blast! They can even drive the robot that they create!
